PARENTING TIP #162

Children are born helpless, so instinctively know how to cry to have their needs met. As they grow older, parents have to help them learn not to use crying as a way to get what they want, especially when what they want may not be essential! Gently helping them learn that "no" is an option for parents, makes the times you can say yes much more exciting. It also helps them understand that they cannot always have their way or what they want at any given moment. This makes their life, and yours, much calmer and happier.
